August 5, 2010

EsTEAM

Business is booming at the Santa Rosa Industrial Park. TEAM welcomes and congratulates three businesses who have opened their doors this month: 84 Lumber, Quality Assurance and H.T. Hackney.

TEAM Santa Rosa recently completed a recruitment mission in July to the Farnborough Air Show in London. A new prospect to the Northwest Florida Industrial Park @ I-10 was identified and we are currently in discussions with the company's decision makers. A specialized marketing campaign is being created to entice this company to locate to Santa Rosa County. We will keep you apprised of our progress.

Visit PanhandleFresh.com to register for season two of the Community Supported Agriculture (CSA) program. The season begins on August 28 and continues thru November 20. The program requires a 13-week commitment and costs \$30 per week. Because the amount of produce being given each week is so large, we encourage individuals to share memberships or alternate weeks in order to divide up the quantity and reduce the cost per person.

New websites are being constructed by TEAM Santa Rosa to highlight the industrial parks in Santa Rosa County. The sites will be interactive and contain data and photos of our available properties. We anticipate the launch of these sites in early fall.

Save the Date! Santa Rosa County Industry Appreciation Week is set for September 27-October 1. The annual luncheon will be on September 28th. More details are forthcoming.
