TEAM EsTEAM. Keeping you informed on the latest and greatest with TEAM Santa Rosa.
Please reply to this email if you wish to be removed from the EsTEAM distribution list.

Staff roles have shifted at TEAM Santa Rosa. The staff is absorbing the roles previously held by Pat Lockard, who retired last month. Tina Stewart will retain her office management responsibilities while taking on existing industry duties, and Ildi Hosman will retain her public relations role while adding workforce responsibilities, but all staff is working together to cover the workload. We will also utilize the services of part time contractors to fill any gaps in order to maximize the funds with which we are working this fiscal year.

Three companies that TEAM is currently working with, in the manufacturing and IT industries, could create upwards of 500 jobs for Santa Rosa County.

New year, new beginnings! TEAM's looking forward to a 2010 full of positive attitudes. We are already building new relationships around the county and region. We're also staying focused on creating an environment to which industries want to locate.
