TEAM EsTEAM. Keeping you informed on the latest and greatest with TEAM Santa Rosa.
Please reply to this email if you wish to be removed from the EsTEAM distribution list.

June 2, 2010

TEAM is partnering with Florida's Great Northwest to interview Santa Rosa County businesses and to enter collected information into an online database called E-Synchronist. Existing business interviews are nearing completion with 19 total consultations in our area targeted industries.

From these existing business interviews, we have learned of a handful of companies in Santa Rosa County that report probable expansions within 24 months. Translation: more jobs for Santa Rosans! TEAM will be assisting these companies every step of the way.

TEAM is working with an industry located in Navarre to find a larger facility, and assisting four other businesses from all around the county with applications for Incumbent Worker Training Grants.

The Community Supported Agriculture program is going strong in week three. Our third drop off occurred on Saturday, May 29th. The box was bursting with color and fresh fruit & vegetable goodness that included blackberries, peaches, nectarines, red potatoes, herbs, tomatoes, grape tomatoes, cucumbers and squash.
